And What Have You

By BOB CRAIG

Since the BCD banquet is tonight and many of you will not be reading this until it is too late, I probably should have made reference to the banquet in this space last week. But since I didn't, I'll go ahead and urge as many of you as I can to attend the banquet tonight.

I had the opportunity to hear our speaker, Emil Rassman, at a press meeting in Abilene last summer and I believe that you will find him well worth listening to. He is one of the most outspoken backers of West Texas that I have heard in a long time. He thinks it is the greatest region in the world and believes in making everyone he sees aware of this fact.

After hearing him, it is not hard to understand how or why he was chosen to head the West Texas Chamber of Commerce.

But more importantly than just hearing a good speaker, your attendance at the banquet is needed to just keep the organization alive and functioning. The BCD is a voluntary organization made up of the citizens of Hamlin and this immediate area. It can only do what the people want it to do and are willing to help it do.

It is the type of organization that if you want it to do more, then you have to be willing to do more. If you don't think it has done enough in the past to promote Hamlin or any other of your favorite projects, then it is likely that you yourself have not done enough.

The American people are great at saying "why don't they" do this or do that, but in the case of this organization "they" are "you." Sure, the BCD has elected directors and officers but these people are just your friends and neighbors and they do not have anymore or any less time, talent, money or energy than you.

H. M. Baggally of the Tulia Herald had an editorial recently in which he wondered why it is that two communities, 50 miles from Amarillo, both basically agricultural and about the same age, have now grown apart until one is nearly three times as large as the other. He is talking about Tulia and Hereford, which started out with what appears to be the same natural advantages and yet Hereford now has a population of 15,700 while Tulia has 5,500. Tulia has \$43,500,000 in bank deposits while Hereford has \$73,400,000. Herford counted \$4,233,685 in new construction last year while Tulia had very little either residential or commercial building.

A lot of other towns that once were about the same size or bigger than Hereford may be wondering the same thing as Tulia is. And this

FROM THE FILES . . .

FIFTY YEARS AGO

(January 25, 1924)

Last week we stated that there would be two road bond elections in Jones County this coming March. Since then it has been learned that there will be but one in March and that is the Anson proposition to vote \$200,000.00 for a development taking a strip through Anson, clear across the county. The Lueders-Stamford-Hamlin or North Side proposition has been withdrawn for the present. The facts in the case seem to be that there is a conflict in the territory wanted by the two districts.

The Stockholders of the First State Bank of Hamlin in their Annual meeting on Jan. 16, elected the following directors: Guy McNeal, J. W. Ezell, L. W. Ezell, W. J. Jackson, J. B. Davenport, Tate May and B. L. Carriger. The directors elected the following officers for the ensuing year: Guy McNeal, president; J. W. Ezell, vice president; Tate May, cashier; and W. C. Russell, asst. cashier.

The Hamlin Luncheon Club held its New Year banquet at the Morgan Hotel, Thursday evening and the attendance was one of the largest and most enthusiastic body of business men that has assembled at a Hamlin gathering for a number of months. There were 75 members present and each one voiced an assurance that our citizenship is united solidly for a bigger, better and busier Hamlin.

TWENTY YEARS AGO

(January 29, 1954)

The Neinda Community went over the top in its March of Dimes drive conducted in connection with a benefit program and pie sale. A total of \$144.66 was raised for the polio fund. Musical numbers were presented by the Martin Family of Abilene Friday night and the pies were auctioned off for benefit of the fund, bringing as much as \$12 each.

Prospects for a general street paving appeared imminent this week as numbers of citizens had been contacted by representatives of the C. & C. Construction Company. The paving concern has had men and equipment in Hamlin for several days now doing two commercial paving jobs. Paved parking areas are being installed at the Midwest Cooperative Oil Mill in Northeast Hamlin and the used car display area at the south and rear of Carl Murrell Chevrolet Company.

Climax of the annual March of Dimes drive in the Hamlin community will be reached this Friday evening with the porchlight campaign to be conducted under auspices of the Parent-Teacher Association.

Dental Health Week will be observed next week in Hamlin and special emphasis will be given through the schools on the importance of children having their teeth checked.

TEN YEARS AGO

(January 30, 1964)

The Hamlin Piperettes never gave up the lead in the game with the Haskell girls in Haskell Friday night scoring 56 to their opponents 45. At the end of the first quarter the Piperettes led 14-11 shooting a 75 percent quarter despite the fact that they lost the ball seven times.

Date for the annual Lions Club Pancake Supper has been set for Friday night, Feb. 21, from 5:30 until

8:00 p.m. Tickets for the supper will go on sale later this week and will sell for 75 cents for adults and 50 cents for children with everyone getting all they can eat.

The poll tax business is finally becoming rather brisk at the office of the Hamlin Board of Community Development. On Monday 165 receipts had been purchased and by Wednesday the figure had risen to 300. Last year the total number sold was 168.

A new construction firm has been opened with Hamlin as the main office. The company, J. O. B. Construction and Supply, Inc., specializing in all types of oilfield construction repair, maintenance, ditching and electrical service.

The 104th District Court at Anson of which Owen B. Thomas is the judge, handled 270 cases last year, just one less than the total number filed during the year. This compares very favorably with activity in other counties and is much better than the record of some courts.

And What Have You

could include Hamlin because up until the late 40's the two towns were about the same size.

Of course, in many cases natural resources have played a big part in the tremendous growth of some areas, but in the final analysis it is the people that make the difference.

For some reason that I do not fully understand, people in some towns seem to be better motivated than the people of other communities. In some communities it seems like everyone is working for the community and in others no one seems to care. In some communities it seems as if everyone is willing to give of their time while in others everyone wants someone else to do the job.

In a few rare cases a community has just been in the right place at the right time but in most cases the communities that have worked for growth have achieved it while those communities that have sat back and waited have come up empty handed.

Over the past two years Hamlin has shown this little extra effort or spark in its efforts to keep our hospital open and getting our district formed. But we can not sit back now and rest contented. And above all the people who worked so hard in keeping the hospital alive cannot just drop out and say they have done their share. Hamlin does not have enough workers to let these proven leaders rest on their laurels.

Hamlin can grow and prosper if we want it to as badly as we wanted to keep our hospital. But just as a half-hearted would not have saved the hospital, it will not pull Hamlin out of a slump in growth.

The Hereford community has grown and prospered without a single drop of oil money because there isn't a producing oil well in Deaf Smith County. But there is fertile soil, lots of water, and above all, a lot of community boosters determined to make things happen in Hereford. That's the real difference between Hereford and Tulia — and Hamlin.

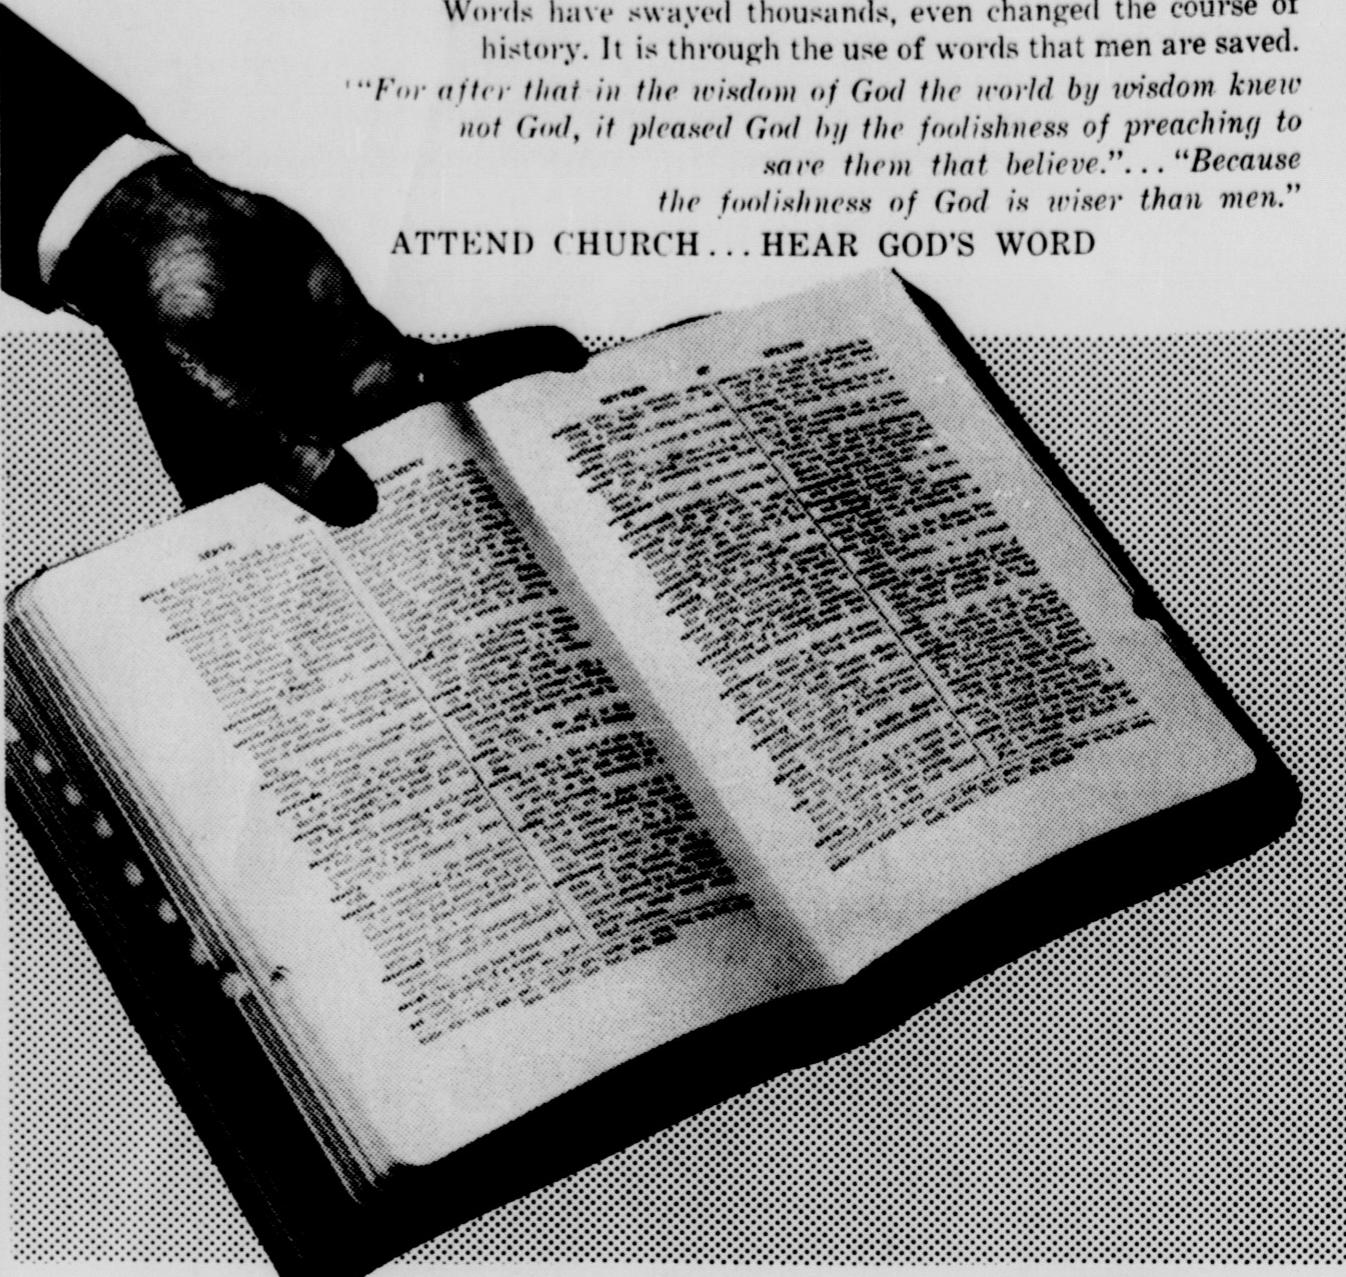

WORD POWER!

One of our popular publications, encourages the learning of new words, and in each edition prints a few words that we can add to our vocabulary.

Words have swayed thousands, even changed the course of history. It is through the use of words that men are saved.

"For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe." . . . "Because the foolishness of God is wiser than men."

ATTEND CHURCH . . . HEAR GOD'S WORD

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

THE FAT IS IN YOUR HEAD

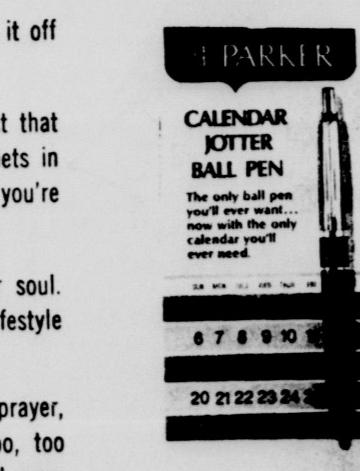

by Charlie W. Shedd

The man who wrote this book lost 120 pounds . . . has kept it off for more than 15 years.

Charlie Shedd's dynamic new book helps you accept the fact that you're overweight. That you are overeating. That all the diets in the world won't budge your belt an inch in the long haul if you're secretly drooling in anticipation of diet's end.

The answer? The fat is in your head. The cure is in your soul. Through a special relationship with God. By developing a lifestyle that makes thinness an inspired state of mind.

Weight loss, weight control are never quick and easy. But prayer, meditation, and closeness to the one who created you, too, too solid flesh can bring you the courage to fight your painful cravings. To make decisions before you get to the table that will help you when you get there. Day after day, for the rest of your life. Charlie Shedd proved it. The fat is in your head. He found his answer. So can you.

TIPS ON SAVING ENERGY

Heavy automobiles and appliances that need rich diets of gas and electricity aren't the only offenders in the energy crisis. Many persons unwittingly waste energy around the house without realizing what's consuming so many kilowatts.

During the heating season, aluminum storm windows will cut in half the heat energy that is needlessly lost through windows of a house. The National Bureau of Standards advises that an investment in storm windows (or thermally insulated windows) will pay for itself within a decade. You'll enjoy greater comfort in your home, and also save scarce fuel supplies.

Room air conditioners keep their cool better while killing off fewer kilowatts when aluminum awnings are used to keep the sunshine out of the room they are cooling. (According to the National Bureau of Standards, awnings can reduce heat gain by as much as 80 percent.) Inside the house, window shades and draperies can reduce heat penetration through windows by as much as 50 percent. Storm windows during air conditioning season keep the hot outdoor air outdoors.

Honors Abundant for "Living Bible" Translator

Dr. Kenneth N. Taylor of Wheaton, Ill., has achieved fame the world over for a task he began as a labor of love for his children.

His paraphrase of the entire Bible, *The Living Bible*, has sold over seven million copies since it was first issued two years ago by Tyndale House Publishers, the company Dr. Taylor heads. It has been on the best seller lists throughout the nation ever since it came out.

Dr. Taylor has received so many honors as a result of his endeavor that he has to weave the acceptance ceremonies into his regular schedule. They range from receiving honorary college degrees to humanitarian and religious awards.

Paradoxically, Dr. Taylor was recently chosen to receive the first Nelson Bible Award from one of his competitors in the sale of Bibles. The award was created by Thomas Nelson, Inc., a company whose name has been synonymous with Bible publishing for a century and which issued the Revised Standard Version of the Bible.

"It is a high privilege to give the first Nelson Bible Award to a man whose work has inspired millions to read God's Word," said Sam Z. Moore, president of Thomas

Dr. Taylor began paraphrasing the Bible in an effort to hold the interest of his 10 children during daily family devotions. When publishers refused to print this modern translation, he had it printed privately. The work ultimately resulted in creation of Tyndale House Publishers, now a leading publisher of religious material.

MENTAL HEALTH MATTERS

National Institute of Mental Health

Good To Know

It's Good To Know About Mental Health is the title of a new publication from the Federal Government's mental health agency—the Alcoholism, Drug Abuse, and Mental Health Administration of the U.S. Department of Health, Education, and Welfare.

The pamphlet offers an overview of the major matters not only of mental health but also of mental illness.

Since the positive values of life ought always to be accepted, the new pamphlet starts out with a discussion of just what mental health consists of—and gives "two important tips" for your guidance.

It's Good To Know About Mental Health goes on to tell you what to watch for to protect mental health and cope with mental illness.

"You can help yourself and your family and friends a great deal," the publication says, "by

WEDDING TIPS GIVEN FOR WRITE-UP

Planning a wedding? These tips on getting information to the Hamlin Herald office should be followed.

1. Two pictures of the bride will be used only if the engagement is announced six weeks prior to the wedding. A one column picture will be used with the engagement announcement and a two column picture will be used with the wedding date.

2. Only black and white prints will be used. A billfold size for the engagement picture is adequate. A 5 x 7 or 8 x 10 is suitable for the wedding picture. Glossy prints are preferred.

3. Wedding information and picture should be turned in before the wedding or on Monday immediately following a wedding that occurs Wednesday through Sunday. Monday and Tuesday evening weddings should be reported no later than Monday. Information that is to be sent to a daily publication should be in the Herald office one week prior to the wedding date.

4. Information and picture received three weeks after the event will not be published. A brief announcement of the wedding will be used after three weeks.

5. Wedding stories and pictures are used when either the bride or groom is a resident or former resident of Hamlin. Grandchildren of residents may choose either to have a picture with cutlines or a wedding story.

Information blanks for engagements, weddings and anniversaries are available at the Herald office.

**Elmer Martin Seeks
Second Term to House**

State Representative Elmer Martin today announced that he will be a candidate for return to the state representative's office, 61st district, which includes Jones, Fisher, Nolan, Mitchell and part of Taylor counties.

His candidacy is subject to voting in the Democratic primary in May.

Pressed with a busy six-day schedule as a member of the important local government committee of the Texas Constitutional Convention, Rep. Martin said a formal statement will be issued at a later date.

"The task of writing a new state constitution is a monumental assignment," Rep. Martin said, "and I am focusing my undivided attention on my responsibilities as a delegate to this convention. Because of this priority, my candidacy for return to the representative's office will take a back seat in my work schedule for the duration of the constitutional convention."

An indication of the

demands of this work is evidenced in the fact that Martin's committee on local government last week heard approximately 50 witnesses representing a cross section of Texas. This necessitated committee work sessions every morning into evening Monday through Saturday.

In the 63rd Legislative session Martin represented his 61st district as a member of the house committee for agriculture and livestock, environmental affairs and liquor regulations.

Alvin Hill, 76, of Haskell since 1963, was buried in Afton Cemetery, six miles west of here Saturday. Funeral was at 10:30 a.m. in the Eastside Baptist Church in Haskell.

Mr. Hill died at 1 a.m. Thursday at his residence in Haskell.

He was born Jan. 14, 1898, in Bosque County and came to Hamlin in 1906. He married Martha Viola Greenway Oct. 22, 1916, in Hamlin. She died Jan. 18, 1958. He married Mrs. T. M. Mapes Sept. 25, 1963, in Hamlin and they moved to Haskell at this time.

He was a member of Eastside Baptist Church.

Youth Rally

The Wichita Falls Valley Division Youth Rally will be held Monday at the Foursquare Gospel Church here beginning at 3:30 p.m.

The event will be under the direction of the divisional director, the Rev. Floyd Bailey, pastor of Knox City Foursquare Gospel Church.

The evening meal will be served at 5 p.m. and the evening service will begin at 7.

MIGRANT CHILDREN— Program Encourages Involvement of Parents

Derryl Coats has been named manager of the local JRB store and assumed his duties here Jan. 24. He was formerly assistant manager of a JRB store in Abilene where he had been employed since September, 1973.

He was named manager by J. R. Beadle, owner of Brownwood, and Troy Daniels, supervisor of stores.

A graduate of Cooper High School in Abilene, Coats served from 1965 to 1968 with the U. S. Army. He was in Korea 14 months and the remainder of the time in service was spent in Louisiana and California.

He is married to the former Jeannie Stevens of Abilene. They have two children, Lori Denise, 5, and Kevin Ray, 4. A nephew, Mark Allen Bullock, 12, makes his home with them.

Mrs. Coats is a beautician. The family plans to move to Hamlin as soon as housing is available.

The local store, formerly Piggly Wiggly, was purchased from Edgar Duncan Jan. 3.

There are about 110 migrants enrolled in the three schools with Stamford having the most enrolled at this time. The region, which contains 13 counties, expects the total to reach 700 during this school year.

Funded through Title I, the project is supervised by Bill Merkel, chief consultant to the migrant program, Education Service Center in Abilene.

Purpose of the program is to educate the parents on school education by use of visual aids, observation in the classroom and newspaper articles.

During December and January visits were made to the parents to familiarize them with the program. Mrs. Chris Pena is the PSCI aide in Hamlin. This is a pilot for Region 14 and is the first time to be tried county-wide. The program has been working successfully in the valley for about three years.

Once a week Mrs. Pena and Mrs. John Vasquez, Stamford PSCI aide, go to Anson to visit the parents of migrant children there.

Driver Education in Spanish could be offered if enough interest is shown.

Mrs. Pena said, "We're trying to get the parents and community involved in what the school is doing. Actually, we're selling the school to the migrant parents. A very small percentage of migrant

children ever finish their education. The parents see school as a waste of time. With their continual moving around, the child gets further and further behind. Eventually the child just quits trying to stay up with the class and leaves school as soon as he reaches legal age. A child will usually follow the example set by the parents. If he sees the parent enthusiastic about school, then it stands to reason that the child will more than likely follow suit."

Members of the local Parent Advisory Committee (PAC) are Trine Contreras, Mrs. Melvina Hernandez, Mrs. James Covington, Mrs. Harold Miller, Mrs. Joe Don Hymer, Mrs. Donald Young, Mrs. L. B. Bruner, Mrs. Jimmy Tamez, Mrs. Pena, Larry Butler, elementary principal and Joe Castro, migrant teacher.

Migrant classrooms have been opened to parents and they are encouraged to observe the equipment and methods used to teach the children. Migrant parents are also encouraged to attend adult education classes at the school.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Since the BCD banquet is tonight and many of you will not be reading this until it is too late, I probably should have made reference to the banquet in this space last week. But since I didn't, I'll go ahead and urge as many of you as I can to attend the banquet tonight.

I had the opportunity to hear our speaker, Emil Rassman, at a press meeting in Abilene last summer and I believe that you will find him well worth listening to. He is one of the most outspoken backers of West Texas that I have heard in a long time. He thinks it is the greatest region in the world and believes in making everyone he sees aware of this fact.

After hearing him, it is not hard to understand how or why he was chosen to head the West Texas Chamber of Commerce.

But more importantly than just hearing a good speaker, your attendance at the banquet is needed to just keep the organization alive and functioning. The BCD is a voluntary organization made up of the citizens of Hamlin and this immediate area. It can only do what the people want it to do and are willing to help it do.

It is the type of organization that if you want it to do more, then you have to be willing to do more. If you don't think it has done enough in the past to promote Hamlin or any other of your favorite projects, then it is likely that you yourself have not done enough.

The American people are great at saying "why don't they" do this or do that, but in the case of this organization "they" are "you." Sure, the BCD has elected directors and officers but these people are just your friends and neighbors and they do not have anymore or any less time, talent, money or energy than you.

H. M. Baggally of the Tulia Herald had an editorial recently in which he wondered why it is that two communities, 50 miles from Amarillo, both basically agricultural and about the same age, have now grown apart until one is nearly three times as large as the other. He is talking about Tulia and Hereford, which started out with what appears to be the same natural advantages and yet Hereford now has a population of 15,700 while Tulia has 5,500. Tulia has \$43,500,000 in bank deposits while Hereford has \$73,400,000. Herford counted \$4,233,685 in new construction last year while Tulia had very little either residential or commercial building.

A lot of other towns that once were about the same size or bigger than Hereford may be wondering the same thing as Tulia is. And this

FROM THE FILES . . .

FIFTY YEARS AGO (January 25, 1924)

Last week we stated that there would be two road bond elections in Jones County this coming March. Since then it has been learned that there will be but one in March and that is the Anson proposition to vote \$200,000.00 for a development taking a strip through Anson, clear across the county. The Lueders-Stamford-Hamlin or North Side proposition has been withdrawn for the present. The facts in the case seem to be that there is a conflict in the territory wanted by the two districts.

The Stockholders of the First State Bank of Hamlin in their Annual meeting on Jan. 16, elected the following directors: Guy McNeal, J. W. Ezell, L. W. Ezell, W. J. Jackson, J. B. Davenport, Tate May and B. L. Carriker. The directors elected the following officers for the ensuing year: Guy McNeal, president; J. W. Ezell, vice president; Tate May, cashier; and W. C. Russell, asst. cashier.

The Hamlin Luncheon Club held its New Year banquet at the Morgan Hotel, Thursday evening and the attendance was one of the largest and most enthusiastic body of business men that has assembled at a Hamlin gathering for a number of months. There were 75 members present and each one voiced an assurance that our citizenship is united solidly for a bigger, better and busier Hamlin.

TWENTY YEARS AGO (January 29, 1954)

The Neinda Community went over the top in its March of Dimes drive conducted in connection with a benefit program and pie sale. A total of \$144.66 was raised for the polio fund. Musical numbers were presented by the Martin Family of Abilene Friday night and the pies were auctioned off for benefit of the fund, bringing as much as \$12 each.

Prospects for a general street paving appeared imminent this week as numbers of citizens had been contacted by representatives of the C. & C. Construction Company. The paving concern has had men and equipment in Hamlin for several days now doing two commercial paving jobs. Paved parking areas are being installed at the Midwest Cooperative Oil Mill in Northeast Hamlin and the used car display area at the south and rear of Carl Murrell Chevrolet Company.

Climax of the annual March of Dimes drive in the Hamlin community will be reached this Friday evening with the porchlight campaign to be conducted under auspices of the Parent-Teacher Association.

Dental Health Week will be observed next week in Hamlin and special emphasis will be given through the schools on the importance of children having their teeth checked.

TEN YEARS AGO (January 30, 1964)

The Hamlin Piperettes never gave up the lead in the game with the Haskell girls in Haskell Friday night scoring 56 to their opponents 45. At the end of the first quarter the Piperettes led 14-11 shooting a 75 percent quarter despite the fact that they lost the ball seven times.

Date for the annual Lions Club Pancake Supper has been set for Friday night, Feb. 21, from 5:30 until

8:00 p.m. Tickets for the supper will go on sale later this week and will sell for 75 cents for adults and 50 cents for children with everyone getting all they can eat.

The poll tax business is finally becoming rather brisk at the office of the Hamlin Board of Community Development. On Monday 165 receipts had been purchased and by Wednesday the figure had risen to 300. Last year the total number sold was 168.

A new construction firm has been opened with Hamlin as the main office. The company, J. O. B. Construction and Supply, Inc., specializing in all types of oilfield construction repair, maintenance, ditching and electrical service.

The 104th District Court at Anson of which Owen B. Thomas is the judge, handled 270 cases last year, just one less than the total number filed during the year. This compares very favorably with activity in other counties and is much better than the record of some courts.

NEWS AND VIEWS . . .

And What Have You

Continued from page 1

could include Hamlin because up until the late 40's the two towns were about the same size.

Of course, in many cases natural resources have played a big part in the tremendous growth of some areas, but in the final analysis it is the people that make the difference.

For some reason that I do not fully understand, people in some towns seem to be better motivated than the people of other communities. In some communities it seems like everyone is working for the community and in others no one seems to care. In some communities it seems as if everyone is willing to give of their time while in others everyone wants someone else to do the job.

In a few rare cases a community has just been in the right place at the right time but in most cases the communities that have worked for growth have achieved it while those communities that have sat back and waited have come up empty handed.

Over the past two years Hamlin has shown this little extra effort or spark in its efforts to keep our hospital open and getting our district formed. But we can not sit back now and rest contented. And above all the people who worked so hard in keeping the hospital alive cannot just drop out and say they have done their share. Hamlin does not have enough workers to let these proven leaders rest on their laurels.

Hamlin can grow and prosper if we want it to as badly as we wanted to keep our hospital. But just as a half-hearted would not have saved the hospital, it will not pull Hamlin out of a slump in growth.

The Hereford community has grown and prospered without a single drop of oil money because there isn't a producing oil well in Deaf Smith County. But there is fertile soil, lots of water, and above all, a lot of community boosters determined to make things happen in Hereford. That's the real difference between Hereford and Tulia — and Hamlin.

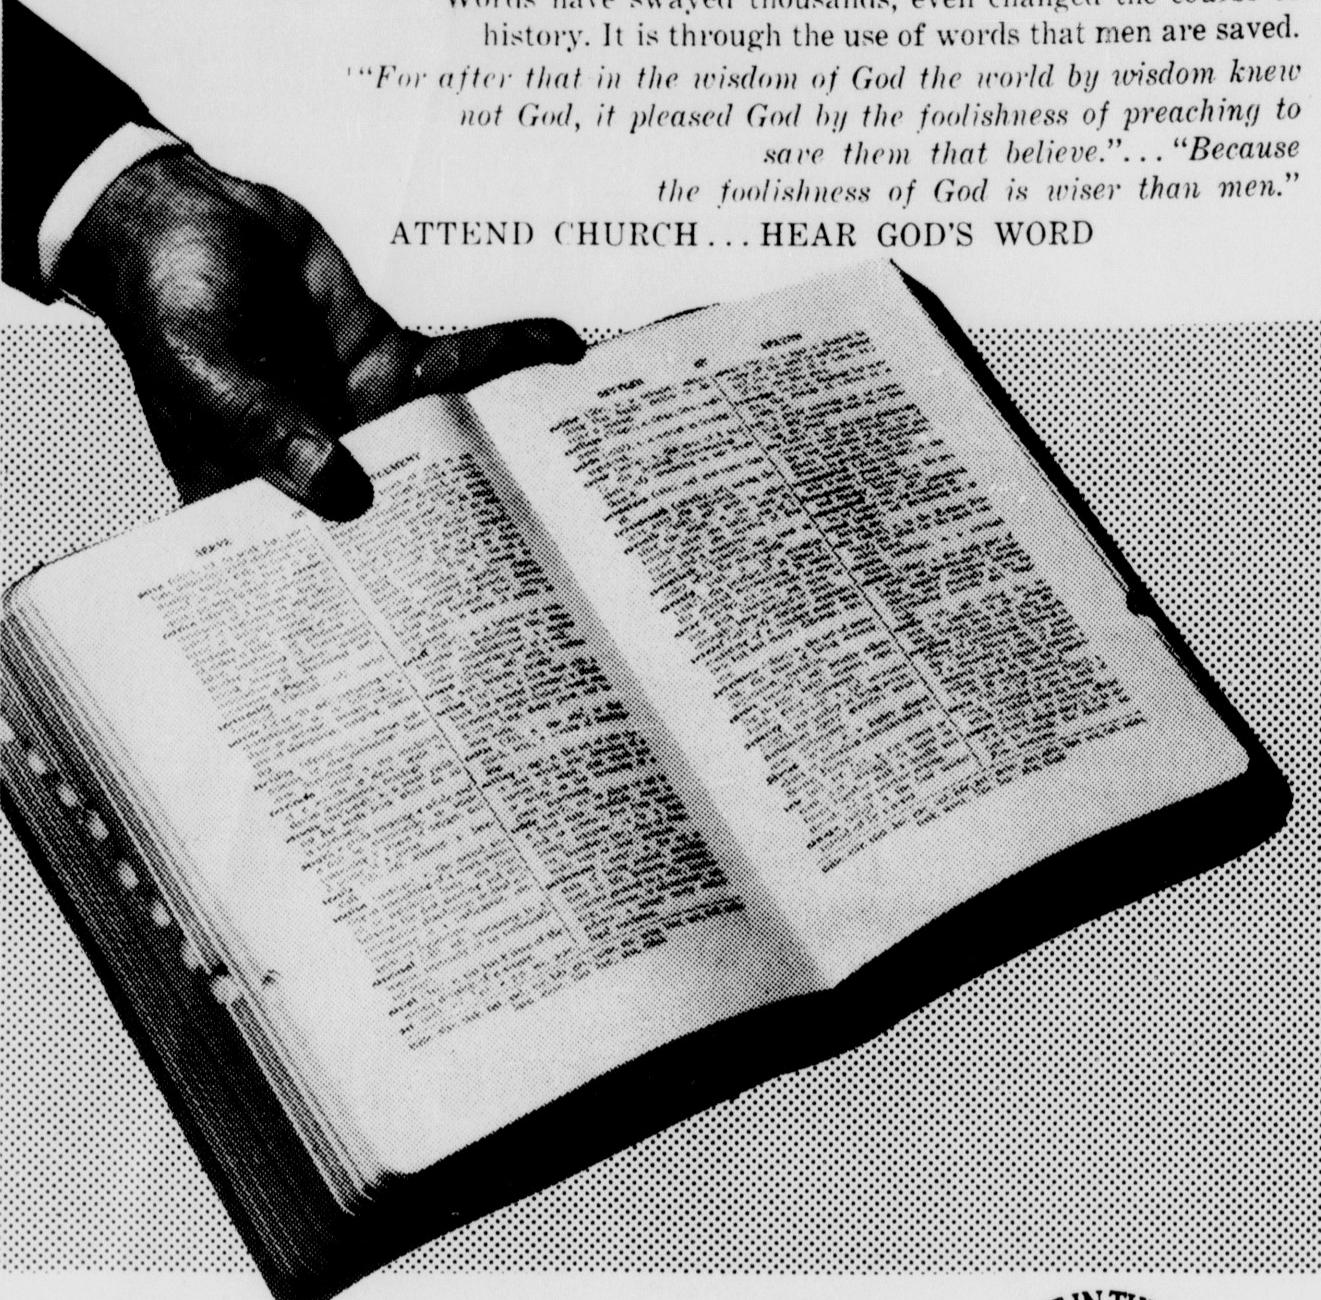

WORD POWER!

One of our popular publications, encourages the learning of new words, and in each edition prints a few words that we can add to our vocabulary.

Words have swayed thousands, even changed the course of history. It is through the use of words that men are saved.

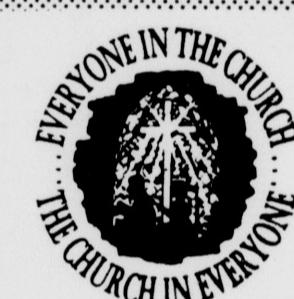

"For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe." . . . "Because the foolishness of God is wiser than men."

ATTEND CHURCH . . . HEAR GOD'S WORD

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

TIPS ON SAVING ENERGY

Heavy automobiles and appliances that need rich diets of gas and electricity aren't the only offenders in the energy crisis. Many persons unwittingly waste energy around the house without realizing what's consuming so many kilowatts.

During the heating season, aluminum storm windows will cut in half the heat energy that is needlessly lost through windows of a house. The National Bureau of Standards advises that an investment in storm windows (or thermally insulated windows) will pay off itself within a decade.

You'll enjoy greater comfort in your home, and also save scarce fuel supplies.

Room air conditioners keep their cool better while killing off fewer kilowatts when aluminum awnings are used to keep the sunshine out of the room they are cooling. (According to the National Bureau of Standards, awnings can reduce heat gain by as much as 80 percent.) Inside the house, window shades and draperies can reduce heat penetration through windows by as much as 50 percent. Storm windows during air conditioning season keep the hot outdoor air outdoors.

The Fat is in Your Head

THE FAT IS IN YOUR HEAD

by Charlie W. Shedd

The man who wrote this book lost 120 pounds... has kept it off for more than 15 years.

Charlie Shedd's dynamic new book helps you accept the fact that you're overweight. That you are overeating. That all the diets in the world won't budge your belt an inch in the long haul if you're secretly drooling in anticipation of diet's end.

The answer? The fat is in your head. The cure is in your soul. Through a special relationship with God. By developing a lifestyle that makes thinness an inspired state of mind.

Weight loss, weight control are never quick and easy. But prayer, meditation, and closeness to the one who created you too, too solid flesh can bring you the courage to fight your painful cravings. To make decisions before you get to the table that will help you when you get there. Day after day, for the rest of your life. Charlie Shedd proved it. The fat is in your head. He found his answer. So can you.

Good To Know

It's Good To Know About Mental Health is the title of a new publication from the Federal Government's mental health agency—the Alcoholism, Drug Abuse, and Mental Health Administration of the U.S. Department of Health, Education, and Welfare.

The pamphlet offers an overview of the major matters not only of mental health but also of mental illness.

Since the positive values of life ought always to be accentuated, the new pamphlet starts out with a discussion of just what mental health consists of—and gives "two important tips" for your guidance.

It's Good To Know About Mental Health goes on to tell you what to watch for to protect mental health and cope with mental illness.

"You can help yourself and your family and friends a great deal," the publication says, "by

6 WAYS TO CONSERVE AND SAVE ON ELECTRIC COOKING

Today's modern electric range offers you a host of special features which assure uniform cooking results each time. You'll find that cooking electrically is clean, cool and economical.

- For best results, use flat bottom utensils with tight fitting covers. Utensils of medium or heavy weight aluminum conduct heat faster, transfer heat evenly and respond quickly to temperature changes.
- Match the utensil to the size of the unit. Use 8 inch units for large utensils. Use 6 inch units for small to average sized pans.
- Use high setting for a quick start for any surface cooking, or to boil water quickly. When cooking temperature is reached, switch to a lower setting.
- Do not pre-heat the oven for roasting or broiling, but do pre-heat the oven to the temperature given in the recipe for baking.
- Select correct, measured heat. The accurate heat selector switch or oven thermostat enables you to select, exactly, the same correct temperature each time you use it.
- For good heat distribution around the pans, when baking, they should not touch the sides of the oven or each other. Allow one inch clearance. Check for doneness at minimum baking time on recipe, don't keep opening oven door to peek.

Elmer Martin Seeks Second Term to House

State Representative Elmer Martin today announced that he will be a candidate for return to the state representative's office, 61st district, which includes Jones, Fisher, Nolan, Mitchell and part of Taylor counties.

His candidacy is subject to voting in the Democratic primary in May.

"The task of writing a new state constitution is a monumental assignment," Rep. Martin said, "and I am focusing my undivided attention on my responsibilities as a delegate to this convention. Because of this priority, my candidacy for return to the representative's office will take a back seat in my work schedule for the duration of the constitutional convention."

Brig. Gen. Bill Scott To Be Honored By H-SU

ABILENE—Brig. Gen. Willie L. (Bill) Scott, son of Mrs. Frances Scott of Hamlin, has been named a Distinguished Alumni of Hardin-Simmons University and will receive an award during assembly program Feb. 1.

Scott and two other graduates, T. Burns McKinney of Midland and Dr. Virginia Boyd of Abilene, were chosen for the annual awards by the H-SU Alumni Association.

Scott came to H-SU as a student after serving in the Army during World War II. He played football and basketball, and received both the bachelor of science and the master of arts degrees.

He served as an assistant basketball and football coach, and as head track and golf coach before being promoted to head basketball coach in 1950. He coached until 1962, longer than any other man has held the post,

and twice was named Coach of the Year in the Border Conference.

Scott's 1953 and 1957 teams advanced to the NCAA playoffs.

After resigning at H-SU, Scott became State Air Defense Officer with the rank of major. He later served several years in Colorado Springs, and received his present appointment in 1971.

Gen. Scott was inducted into the Army's Artillery Officer Candidate School Hall of Fame at Fort Sill, Okla., last summer, and this past fall was selected as one of three men from the National Guard to serve on a committee of 29 men representing all branches of service to make a study of the army forces in Washington.

While in H-SU, Scott married Billie Sue White of Lamesa, who also is an H-SU graduate. They have a daughter, Aliceson, and a son, Richard.

Mrs. Coats is a beautician. The family plans to move to Hamlin as soon as housing is available.

The local store, formerly Piggly Wiggly, was purchased from Edgar Duncan Jan. 3.

MIGRANT CHILDREN—

Program Encourages Involvement of Parents

Derryl Coats of Abilene has been named manager of the local JRB store and assumed his duties here Jan. 24. He was formerly assistant manager of a JRB store in Abilene where he had been employed since September, 1973.

He was named manager by J. R. Beadle, owner of Brownwood, and Troy Daniels, supervisor of stores.

A graduate of Cooper High School in Abilene, Coats served from 1965 to 1968 with the U. S. Army. He was in Korea 14 months and the remainder of the time in service was spent in Louisiana and California.

He is married to the former Jeannie Stevens of Abilene. They have two children, Lori Denise, 5, and Kevin Ray, 4. A nephew, Mark Allen Bullock, 12, makes his home with them.

migrants enrolled in the three schools with Stamford having the most enrolled at this time. The region, which contains 13 counties, expects the total to reach 700 during this school year.

Funded through Title I, the project is supervised by Bill Merkel, chief consultant to the migrant program, Education Service Center in Abilene.

Purpose of the program is to educate the parents on school education by use of visual aids, observation in the classroom and newspaper articles.

During December and January visits were made to the parents to familiarize them with the program. Mrs. Chris Pena is the PSCI aide in Hamlin. This is a pilot for Region 14 and is the first time to be tried county-wide. The program has been working successfully in the valley for about three years.

Once a week Mrs. Pena and Mrs. John Vasquez, Stamford PSCI aide, go to Anson to visit the parents of migrant children there.

There are about 110

children ever finish their education. The parents see school as a waste of time. With their continual moving around, the child gets further and further behind. Eventually the child just quits trying to stay up with the class and leaves school as soon as he reaches legal age. A child will usually follow the example set by the parents. If he sees the parent enthusiastic about school, then it stands to reason that the child will more than likely follow suit."

Members of the local Parent Advisory Committee (PAC) are Trine Contreras, Mrs. Melvina Hernandez, Mrs. James Covington, Mrs. Harold Miller, Mrs. Joe Don Hymer, Mrs. Donald Young, Mrs. L. B. Bruner, Mrs. Jimmy Tamez, Mrs. Pena, Larry Butler, elementary principal and Joe Castro, migrant teacher.

Migrant classrooms have been opened to parents and they are encouraged to observe the equipment and methods used to teach the children. Migrant parents are also encouraged to attend adult education classes at the school.

Driver Education in Spanish could be offered if enough interest is shown.

Mrs. Pena said, "We're trying to get the parents and community involved in what the school is doing. Actually, we're selling the school to the migrant parents. A very small percentage of migrant
